Inclusiveness

The interfaith service and the inclusiveness we show is vital to the message of Louis Brier: that embedded in our Jewish values is diversity and acceptance. Our survival depends upon this diversity in so many ways. Both our staff and our residents reveal a richness of culture, religion, and language which says that care and compassion have no boundaries. Even on this, St. Jean Baptiste Day, we celebrate our differences but reaffirm that we are more alike than we are different.
