## A QUALITY LIFE FOR THE AGED

The facilities of the Snider Campus are here to provide a quality life for the aged. The coronavirus challenges us to maintain that quality! Many of our programs which focus on group activities must cease for the time being, so how can we continue to see joy in our lives? We can! We alter our programs to be with residents on a one-on-one basis (maintaining social distance, of course). We continue with music and art and utilize technology to preserve contact with our loved ones. We remain thankful for the safe environment and conscientious caregivers in our home.

Shabbat, the Sabbath, is a taste of the world to come, a world of peace and harmony. Of course, a time when epidemics have passed and war has ceased. We can't stop living in this world and protecting ourselves now, but we can imagine a better world. After the danger from the coronavirus has passed, perhaps we won't return to "the way it was." We might have learned something about thinking of others and caring for the whole world. This Shabbat, let's practice kindness as we hope it will be, as it might be, even now.

Shabbat shalom.

Od yavo shalom aleinu - Peace will come upon us, yet!
